

LOGO GUIDELINES 2019

LOGOS

The main logo that will be used across most all brand applications is the primary logo below. The logo mark should be used sparingly. The elements should never be changed. Position, size and color along with the spatial and proportional relationships of the Amphenol Network Solutions logo elements are predetermined and should not be altered.

LOGO CONSTRUCTION & CLEAR SPACE

The Amphenol Network Solutions logo requires separation from the other elements around it. The space required on all sides is roughly equivalent to the letter width of the logo type. It never should be less than that. The logo must always fit into the clear space area and cannot be intervened by other graphical elements which could hinder legibility of the brand.

Please note: That text or pictorial figures, which have strong impact or impression, should not be placed near the logo, even though you keep the isolation area blank.

NOTE: Whenever you use either logo, it must be surrounded with clear space to ensure its visibility.

MINIMUM SIZE

The smallest the logo should be represented is 1" high.

INCORRECT LOGO USE

DON'T rearrange elements

DON'T rearrange elements
