## Overview

Power requirements can vary from location to location, with distribution to different types of network elements the primary driver. Network architects and engineers require a broad range of options—including input amperage ratings, fuse types and amperages, circuit breakers and panel design—to find the best fit for their applications.

Amphenol Network Solutions power products ensure long-term network performance and optimal protection of active gear. We are a market leader in secondary and tertiary DC power distribution, providing the highest quality and broadest portfolio of products. Over the last 10 years, Amphenol Network Solutions has sold more than 250,000 panels with zero in-service failures.

## Key Benefits

- Quality engineered product that will not fail
- Broad choice of DC power distribution panels with industry-leading density
- Best-in-industry warranty: five-year standard
- UL/NEBS tested
- Exceptional service and support

## Panels

### GMT

GMT fuse panels accommodate a wide variety of inputs, up to 125A per bus. Panels support up to 20A fuses to handle a wide range of equipment, universal operating voltage ( $\pm 12/24/48$  VDC) and special features such as noise filtering or load sharing. They fit any network environment—from traditional central offices to customer premise and wireless applications.

### TPA

The TPA fuse panel offers industry-leading high-density fuse protection for both high-current and low-current equipment in one space-saving panel. It's ideal for managing power to routers, DSLAMs, optical MUXes and other active equipment. Inputs go up to 250A per bus, allowing their use across the full range of secondary distribution and the lower range of battery distribution. Available in a variety of configurations, including combination panels with both GMT and TPA fuses, these panels provide an excellent balance of capacity and variety of fuse protection, from 8 circuits per feed up to 16 circuits per feed, and from fuse values from <math><1A</math> to 50A.

## Circuit Breaker

High-current circuit-breaker panels allows engineers to bring power management closer to network elements. Inputs up to 600A per bus, Amphenol Network Solutions circuit breaker panels provide flexibility for primary and secondary distribution when a full battery distribution frame is not required. 1RU panels support up to 60A circuit breakers, and 2RU panels support up to 100A breakers per position or higher with multi-pole adapters. This offers even more flexibility and choice for powering network gear.

## Demarcation

Amphenol Network Solutions demarcation circuit-breaker panels provide a demarcation point for large power feeds between primary distribution and network equipment. Panels are one rack unit supporting up to four 100A inputs. All panels accommodate both TFD fuse holders and bullet-style circuit breakers.

## KLM

The KLM fuse panels allow engineers to transition to higher current demands (up to 30A) while maintaining traditional low-current distribution. Most KLM panels are combination KLM/GMT panels that take up just one rack unit of space and support up to 4x4 KLM/GMT distribution per bus. Higher density panels and load-sharing options are available to fit low-current distribution network environments.

## 1. GMT Fuse Panels

Part Number	Description
125GMT10	125A MAX, DUAL 10/10 20A MAX GMT,+/-12,24,48VDC,1RU

**NOTES:**

- All 350CB and 600CB circuit breaker panels support multi-pole breakers, and TFD fuse holders for TPS/TLS fuses. Single pole breaker maximum is 100A. Maximum fuse sizes are: TPS up to 70A; TLS up to 125A.
- 300CB08 does not support multi-pole breakers, nor TFD fuse holders.

## 4. Demarcation Panels

125A	125449

**iii. Connector Accessories**

Part Number	Description
152799	Connector Kit: Plug, 2x Contacts, 14-16 AWD, 4.0mm
150325	Connector Kit: Plug, 2x Contacts, 12-10 AWG, 4.0mm
150326	Connector Kit: Plug, 2x Contacts, 8-6 AWG, 4.0mm
150333	Replaceable Contact: 8-6 AWG, Single, 4.0mm
150334	Replaceable Contact: 12-10 AWG, Single, 4.0mm
150336	Connector Kit: Plug, 2x Contacts, 12-10 AWG, 2.4mm
150342	Connector Kit: Plug, 2x Contacts, 14-12 AWG, 2.4mm
152029	Connector Kit: Plug, 2x Contacts, 16-14 AWG, 2.4mm
152030	Connector Kit: Plug, 2x Contacts, 20-18 AWG, 2.4mm
150336-5	Kit of 5 Connectors: Plug, Contacts, 12-10 AWG, 2.4mm
150342-5	Kit of 5 Connectors: Plug, Contacts, 14-12 AWG, 2.4mm
152029-5	Kit of 5 Connectors: Plug, Contacts, 16-14 AWG, 2.4mm
152030-5	Kit of 5 Connectors: Plug, Contacts, 20-18 AWG, 2.4mm
150343	Replaceable Contact: 12-10 AWG, Single, 2.4mm
150344	Replaceable Contact: 14-12 AWG, Single, 2.4mm
150797	Tool: 4mm Contact Removal, Plastic Handle
150793	Tool: Crimping Tool, 6-14 AWG, Daniels M300BT

Panel	Connector Type
(nrg)300CB08-C and -SC (nrg)250TPA08-C and -SC (nrg)240GT54-C and -SC (TPA Outputs)	4.0mm
(nrg)125GMTxx-C (nrg)240GT54-C and -SC (GMT Outputs)	2.4mm

150797: 4mm Contact Removal Tool

150793: Crimping Tool

Replaceable Contact

4.0mm Connector Kit

2.4mm Connector Kit

## iv. Connectorized Whips Part Configurator

Connector Type	
P40	4.0mm
P24	2.4mm

Batt Cable Color	
1	Red
2	Blue
3	Black
4	Gray

RTN Cable Color	
1	Red with Black Trace
2	Blue with Black Trace
3	Black
4	Gray with Black Trace

Wire Gauge (AWG)	
6	
8	
10	
12	
14	
16	
18	
20	

*Note:  
4.0mm Connectors work with: 6, 8, 10, 12, & 14  
2.4mm Connectors work with: 10, 12, 14, 16, 18, & 20*

Cable Length (ft)	
01 – 99	

Cable Colors

4.0mm Connector

2.4mm Connector

**v. nrgSMART Accessories**

<b>Part Number</b>	<b>Accessories</b>
nrgTEMP	nrgSMART Temperature Sensor, ACC, 6ft
nrgNET-10	nrgNET cable (nrgSMART: ACC, nrgNET Cable, Un-Terminated, 10ft)
nrgNET-50	nrgNET cable (nrgSMART: ACC, nrgNET Cable, Un-Terminated, 50ft)
nrgNET-150	nrgNET cable (nrgSMART: ACC, nrgNET Cable, Un-Terminated, 150ft)
nrgNET-500	nrgNET cable (nrgSMART: ACC, nrgNET Cable, 500ft Spool)
<b>Part Number</b>	<b>Replacement Components</b>
141431	Replacement nrgNET 5-pin connector (Term Block: RCPT, 1x5)
090-1000-0003	Alarm Card, Replacement, nrgSMART Panels
090-1000-0004	CTRL Card, Replacement, nrgSMART-CTRL Panels
090-1000-0005	SENS Card, Replacement, nrgSMART-SENS Panels
090-1000-0007	Alarm Card Replacement for nrg600BT10
090-1000-0008	Alarm Card Replacement for BDFB
090-1000-0009	Alarm Card Replacement for nrg600BT20
